Any suggestions that may be received by the Government in respect of the draft regulations within three months from the date of this notification will be duly considered. Such suggestions should be made by letter addressed to the Secretary to the Government, Public Works and Labour Department, Port St. George, Malacca.

#### APPENDIX.

REGULATIONS FOR THE DISTRIBUTION AND SALE OF ELECTRICAL ENERGY GENERATED BY GOVERNMENT.

1. Electrical energy generated from a hydroelectric source will be supplied by Government to distributing agencies in bulk only.

2. Any organisation generating electric energy will be required, after being given a final notice of at least six months, to close down their power station or stations and take power from Government when the Government's needs are substantially below the cost of production of the said power station or stations. Interpretation of cost of production is given in clause 8. When such procedure is found necessary the right of appeal to a competent authority will be recognised.

3. Unless otherwise specified, Government reserves to themselves the right to supply any single consumer or group of consumers with power where the demand exceeds 25 K.V.A. within the area of supply of the distributing organisation. Such organisations will, however, be free given the option to supply such consumers.

4. The maximum tariffs for bulk supply of power at 11,000 volts delivered from the nearest Government sub-station will be as follows:—

	Maximum demand in K.V.A.	Rate per annum.	Unit.
			K.W.H.
		Rs.	APPROX.
Class I	50 to 95 H.P.	.. 50	plus 2.70
Class II	100 to 245 H.P.	.. 50	" 0.40
Class III	250 to 495 H.P.	.. 60	" 0.80
Class IV	500 to 995 H.P.	.. 68	" 0.50
Class V	1,000 to 2,495 H.P.	.. 65	" 0.40
Class VI	2,500 to 4,995 H.P.	.. 65	" 0.35
Class VII	5,000 and over H.P.	.. special rates	

The maximum demand will be the highest observed maximum load for thirty minutes during the year.

The minimum monthly bill will be the maximum demand as interpreted above multiplied by one-tenth of the maximum annual demand rate.

5. The maximum tariffs for light and power at 480 volts or lower to be charged to the public by any organisation will be as follows:—

- Lighting—5 annas per K.W.H.
- Lighting and fans—4 annas per K.W.H.
- Street lighting—2.5 annas per K.W.H.
- Domestic supply—

Rs. 2 per month for each 45 Watt lamp for a maximum of five lamps per day.

Rs. 3-0-0 per month for each 25 Watt lamp for a maximum of a dozen per day.

The minimum monthly charge for classes (a) and (b) need not exceed Rs. 4 per kilowatt of connected load with a minimum of three annas.

(a) Small power at 480 volts or lower:—

For the first 1,000 units per month, 2 annas per unit.

For the next 1,000 units per month, 1.5 annas per unit.

For the next 1,000 units per month, 1.8 annas per unit.

For the next 1,000 units per month, 2.2 annas per unit.

Over 10,000 units per month, 1.2 annas per unit.

(f) Agricultural power up to 25 H.P., 1.5 annas per unit.

Agricultural power up to 40 H.P., 1.5 annas per unit.

Note.—If the electric power is transported to a town or station for the first time the organisation will be permitted to special rates to increase the maximum rates by 15 per cent for the first year and by 10 per cent for the second year.

(g) The maximum rates which may be charged to the maximum monthly charge for power will be:—

Up to 2 horse power, Rs. 5 per installed H.P. per month.

4 to 10 horse power, Rs. 8 per installed H.P. per month.

11 to 25 horse power, Rs. 7 per installed H.P. per month.

Above 25 horse power, Rs. 6 per installed H.P. per month.

(h) Rates for high tension power must not exceed the all-out Government rate as shown in clause (a), but when 11,000 volt power is distributed by public or private organisations, suitable discounts up to a maximum of 20 per cent will be allowed them by Government when the directly fixed rate not permit of sufficient profit to the Government.

8. When the profits made by any Electric light and power undertaking and available for distribution to shareholders and dividends exceed an amount equal to 20 per cent on the paid-up capital, the said profits shall be the property of the shareholders and the said profits shall, if required by Government, be proportionately reduced.

9. First, in this case, is defined as the difference between the gross revenue and the cost of production.

10. Cost of production for the purpose of these regulations includes:—

(a) Cost of power (whether purchased from another source), of fuel, oil, water and steam consumed; salaries and wages, including for persons, superintendence and maintenance of stations and service; cost of repairs, maintenance and removal of small parts not chargeable to depreciation account.

(b) DEPRECIATION, rates and taxes (including income) and for insurance of property.

(c) Management and general establishment charges and other expenses on business account attributable to the system.

(d) Any working fund up to 1 per cent of the capital invested in the undertaking that may be set aside annually as a reserve fund for contingencies. When the fund exceeds 5 per cent of the invested capital, the surplus may be returned to the shareholders and the equivalent is borne stated added to the shareholders.

(e) An allowance for depreciation equal to the working fund charges payable attributable to the station, plant and distribution system.

11. At least 10 per cent of the depreciation funds must be invested in Government or Treasury securities and not drawn upon, without the permission of the Government, until the fund has accumulated to the original amount provided for.

10. When a return on the capital invested has averaged less than 7 per cent over a period of five years, average amount of 15 per cent may, in special cases, be sanctioned. The accumulated deficit over 15 per cent is to be set aside to meet the difference between the simple interest at 7 per cent for the years on the invested capital, and the sum of the actual dividend earned over the five-year period under review.

11. In order to minimise the risk of any extraordinary expenditure when the time comes to renew any system with a Government supply of power, the design and specifications of all electric light and power systems must be approved by Government.

12. Before the supply is made by the Government, distributing organisations will be required to execute an agreement embodying the above conditions.

#### DEPARTMENT OF AGRICULTURE.

##### GROUNDWATER CROP OF 1938—FOURTH OR FIFTH YEAR.

[On an average of the five years ending 1931-32, the area under ground-water in the Madras Presidency has registered 87.5 per cent of the total area under ground-water in India.]

The area sown with ground-water in the Madras Presidency in 1938 is estimated at 3,217,280 acres against the estimate of 3,541,200 acres on the corresponding date of last year, which fell short of the likely possible area of 3,619,240 acres by about 397 per cent.

3. The total area is less than that of last year by about 12 per cent. This is due to the late and short south-west monsoon rains in the Deccan. There was, however, an increase in most of the other districts. The area in the area in Greater District increased to be 100 per cent. The last estimate was from 221,970 acres to 269,280 acres in the current year. 721,200 acres have been reported since the date of the previous October forecast, mainly in South Arcot, Tirunelveli, and the Coimbatore districts.

3. The harvesting of the summer and early crop of ground-water was delayed by the beginning of October. The harvesting of the winter or main crop is proceeding.

The crop was normal early in the Coimbatore, Madras, Coimbatore, Madras, and Madurai, and below average in the other districts. In Anantapur, the yield is expected to be specially low, about 75 per cent of the average yield.

The seasonal deficit for the Presidency works out at 52 per cent of the average normal 50 per cent for the previous year. On this basis, the yield is estimated at 1,484,100 tons of unshelled rice against 1,635,516 tons in the previous year, a decrease of about 20 per cent. The yield in an average year is estimated at 1,535,500 tons.

4. Figures by districts are given in the statement appended.

THE CINCIPALLY CROP OF 1931-32—  
THIRD REPORT.

[On an average of the five years ending 1927-28, the area under pignolly in the Malacca Peninsula has represented 12% per cent of the total area under pignolly in Malacca.]

The area sown with pignolly up to the end of December 1931 is estimated at 228,500 acres as against an estimate of 221,850 acres in the corresponding date of last year, or an increase of about 2.5 per cent.

There has been a decrease of 2,400 acres in the District due to insectical raids. But there has

been an increase of 28,600 acres in the Central District where the sowing season was favourable.

Trichinopoly is the only district that had large fresh sownings after the previous harvest.

The Barometer and Thermometer are read at 8 a.m., 12 noon, 4 p.m. and 8 p.m. and the daily mean are obtained by the application of hourly observations, deduced from twenty years' observations. The column of the barometer is twenty-two feet above the level of the sea, and the column of the rain-gauge is two feet from

the ground. The wind, rain and general weather registered are for the current and day-from midnight to midnight.

The total quantity of rain collected since 1st January is 1.47 inches, the average day for the same period being 0.04 inches.

# BILL No. 2 OF 1939.

## The Madras Gaming Bill.

*A Bill to provide for the consolidation of the law in regard to gaming and the keeping of common gaming houses in the Presidency of Madras.*

Whereas it is expedient to make provision for the punishment of gaming and the keeping of common gaming houses in the Presidency of Madras, it is hereby enacted as follows:—

1. This Act may be called the Madras Gaming Act, 1939.

2. This Act extends to the Presidency of Madras with the exception of the City of Madras

3. In this Act, unless there be something repugnant in the subject or context.

"Common gaming house" means any enclosure, room or place in which cards, dice, tables or other instruments of gaming are kept or used for the profit or gain of the person owning, occupying, using or keeping such enclosure, room or place, whether by way of charge for the use of instruments of gaming or of the enclosure, room or place, or otherwise howsoever;

"Gaming" does not include a lottery, but includes wagering or betting on a horse-race except when such wagering or betting takes place—

i. on the date on which such race is to be run; and

ii. in a place or places within the race enclosure which the authority controlling such race has with the sanction of the Local Government set apart for the purpose.

"Instruments of gaming" include an article used as a subject or means of, or for the purpose of carrying on or facilitating, or in connection with gaming and any books, lists, tickets, forms or other documents used or intended to be used as a register or record or evidence of gaming.

4. (i) Whoever opens, keeps or uses, or permits to be opened, kept or used any enclosure, room or place for the purpose of gaming on a horse race shall be liable on conviction, to imprisonment not exceeding three months or for every day in which such enclosure, room or place is so opened, kept or used to a fine not exceeding five hundred rupees or to both.

(ii) Whoever is found gaming on a horse race shall be liable, on conviction, notwithstanding any provision to the contrary in this Act, to a fine not exceeding five hundred rupees or to imprisonment not exceeding one month.

5. If any Magistrate of a District or the District Superintendent of Police has reason to believe that any place is used as a common gaming house, he may by his warrant give authority to any Police Officer, not below the rank of a Sub-Inspector, to enter with such assistance as may be found necessary, by night or by day, any such

place, and to arrest all persons found therein and to seize all instruments of gaming and all moneys and securities for money and articles of value reasonably suspected to have been used or intended to be used for the purpose of gaming which are found therein, and to search all parts of such place and also the persons found therein.

6. Any cards, dice, gaming table or cloth, board or other instruments of gaming found in any place entered or searched under the provisions of the last preceding section, or on any person found therein shall be evidence that such place is used as a common gaming-house, and that the persons found therein were there present for the purpose of gaming, although no play was actually seen by the Police Officer or any of his assistants.

7. It shall not be necessary, in order to convict any person of keeping a common gaming-house or of being concerned in the management of any common gaming-house, to prove that any person found playing at any game was playing for any money, wager, bet or stake.

8. Whoever opens, keeps or uses, or permits to be used any common gaming-house, or conducts or assists in conducting the business of any common gaming-house or advances or furnishes money for gaming therein, shall be liable on conviction to fine not exceeding five hundred rupees or to imprisonment not exceeding three months, or to both.

9. Whoever is found gaming or present for the purpose of gaming in a common gaming-house shall on conviction be liable to fine not exceeding two hundred rupees or to imprisonment not exceeding one month; and any person found in any common gaming-house during any gaming or playing therein shall be presumed, until the contrary be proved, to have been there for the purpose of gaming.

10. On conviction of any person for keeping a common gaming-house, or being present therein for the purpose of gaming, all the instruments of gaming found therein may be destroyed by the order of the Magistrate, and such Magistrate may order all or any of the other articles seized, or the proceeds thereof, to be forfeited.

11. Nothing in sections 5 to 11 of this Act shall be held to apply to games of mere skill wherever played.

12. Whoever is found gaming with cards, dice, counters, money or other instruments of gaming in any public street, place or thoroughfare or publicly fighting cock, shall be liable on conviction to fine not exceeding fifty rupees or to imprisonment not exceeding one month; and such instruments of gaming and money shall be forfeited.

13. Any Police Officer may arrest without a warrant any person committing in his view any offence made punishable by this Act.

14. Sections 5 (sub-section 10), 6, 7 and 8 of the Town Nuisance Act, 1869, are hereby repealed.

#### STATEMENT OF OBJECTS AND REASONS.

The Madras City Police (Amendment) Act, 1920, was designed to deal with bucket shops in the City of Madras. There is increasing evidence of the fact that bucket shops are springing up outside the municipal limits. In order to deal with them effectively and to maintain the law on gaming and keeping common gaming-houses throughout the province, this Bill extends to the Presidency, with the exception of Madras City, those provisions of the Madras City Police Act, 1920, as amended by the Madras City Police (Amendment) Act, 1925, which deal with bucket shops. It also combines, in the same Bill, the provisions of the Madras City Police Act, 1888, and the Town Nuisance Act, 1869, which relate to gaming and the keeping of a common gaming-house.
